

Answers: 5.1.2.3 Lab - Search NOC Certifications and Jobs

In this lab, you will use the Internet, a newspaper, or magazines to gather information about network operating system certifications and jobs that require these certifications.

Web sites such as Monster.com, Indeed.com, Simplyhired.com, or LinkedIn.com can be used.

- a. Use the Internet to research three different network operating system certifications. Based on your research, complete the table below.

Company	Network Operating System(s) covered	Certification(s) title	Courses/Training required for Certification

- b. Use the Internet, a newspaper, or a magazine to find at least two network jobs available in your area. Describe the network jobs and the required certifications needed for the position.

- c. Which job would you prefer? List reasons for your selection.
